DEFINITION OF ESTABLISHMENT AND MANUFACTURING ACTIVITY

An establishment is generally a single physical location where business is conducted or where services or industrial operations are performed. Further clarification is provided in the General Instructions.

Manufacturing activity involves the mechanical, physical, or chemical transformation of materials, substances, or components into new products. The assembling of component parts of manufactured products is considered manufacturing, except in cases where the activity is appropriately classified in Sector 23, Construction.

Who Should Report

Since data will be published for industries and States, separate reports are required for each manufacturing establishment (plant).

An establishment is a single physical location where manufacturing is performed. If your company operates at different physical locations, even if they are producing the same line of goods, a separate report must be filed for each location.

If your company operates in two or more distinct lines of manufacturing at the same location, file a separate report for each activity.

Manufacturing Activities

Report all activities (manufacturing, fabricating, processing, and assembling) conducted within the establishment.

Include

* Maintenance of plant and equipment
* Receiving and shipping activities
* Warehousing and storage
* Research
* Recordkeeping
* Health and safety
* Cafeteria and other services unless operated as separate establishments

Exclude

* Sales branches and sales offices
* Research laboratories
* Retail stores
* Mining activities and general administrative offices

The Manufacturing Sector also includes establishments engaged in the following activities:

* Apparel jobbing and contracting
* Assembly from purchased components
* Commission processing of materials owned by others
* Job casting, stamping, and machining
* Lapidary work
* Machine shops, including those operating on a job-order basis
* Manufacturing and delivering ready-mixed concrete
* Milk pasteurizing and bottling
* Plating, galvanizing, polishing, etc., of materials owned by others
* Poultry dressing
* Printing book, periodical, etc.
* Sawmills
* Seafoods, fresh-packaged or frozen
* Wood preserving

Descriptions of some of these activities are provided in the DETAILED INSTRUCTIONS. 

WHAT PERIOD SHOULD EACH REPORT COVER?

Each report should cover the calendar year 2007.

If book records are not on a calendar-year basis, carefully prepared estimates are acceptable.

If an establishment began to operate or ceased to operate during 2007, report only the part of the year that the establishment was in operation.

If the operator changed during the year, report only for that part of the year that your company operated the establishment. Report in the appropriate information on changes in operator or operational status.

Specify in the certification, the exact period that the report covers.
